# Apprenticeship Program

THE ACE GROUP  
Leaders In Air Technology

## *CDH Apprenticeship Program*

Consolidated Distribution Holdings is launching an exciting apprenticeship program. This program is designed to ensure candidates achieve a foundation knowledge, in several skills that will enable them to develop themselves in an engineering discipline.

The program offers the highest technical standards, to ensure qualifications are relevant to meet the demands of high quality and high performing products in the market place.

The qualification gained is an EAL Level 3 Diploma in Advance Mechatronics Maintenance Technician Manufacturing and Engineering.

The modules covered are

- Fitting
- Mechanical maintenance
- Wiring and testing
- Electrical maintenance
- Electronics
- PLC's
- Fluid power
- IOSH working safety
- Abrasive wheels training
- Basic first aid and de fib training
- 18th Edition wiring regulations

## Compressed air around you

Did you know that the market size of compressors is over £4 Billion pounds worth, and this is only for compressors. Once we take maintenance, repairs and installation into this figure we more than treble this amount.

**Almost everything** we come across requires or uses compressed air to get to you.

- Your mobile phone during manufacturing and delivery.
- Your beverage during production and bottling.
- Your day out to the theme park...

The list goes on and on. It is a critical piece in manufacturing and process plants that allow us to live our daily lives.

Take a look at some of the companies that use compressed air

For more information on how to apply to our apprenticeship program please email.
